Mode Normal Backup

IP/Domain name 10.254.100.150

OK Cancel

On the FortiManager, to delete a device:

1. If using ADOMs, ensure that you are in the correct ADOM.
2. Go to Device Manager > Device & Groups.
3. In the content pane, select a device and then click Delete in the toolbar, or right click on a device and select Delete.
4. Click OK in the confirmation dialog box to delete the device.

The screenshot shows the FortiManager web interface. The browser address bar indicates the URL is 10.254.100.150/p/app/#/adom/dvm/groups/-3/. The interface is in Portuguese. The 'Device Manager' tab is selected, and the 'Device & Groups' sub-tab is active. The 'Managed Devices' section shows a list of three devices: FORT-BH01, FORT-CMP01, and FORT-SP01. The 'Delete' button is highlighted in the toolbar above the table. The table columns are: Device Name, Config Status, Policy Package Status, Firmware Version, and Host Name.

Device Name	Config Status	Policy Package Status	Firmware Version	Host Name
FORT-BH01	Auto-update	FORT-BH01	FortiGate 6.4.5,build1828 (GA)	FORT-BH01
FORT-CMP01	Unknown	FORT-CMP01	FortiGate 6.4.4,build1803 (GA)	FORT-CMP01
FORT-SP01	Unknown	FORT-SP01_root	FortiGate 6.4.4,build1803 (GA)	FORT-SP01
